

Education

University of California, San Diego

Master of Science in Computer Science and Engineering | GPA: 3.68 / 4.0

Sep 2024 - Jun 2026

Bachelor of Science in Mathematics - Computer Science | GPA: 3.96 / 4.0 (*Magna Cum Laude*) 2020-2024

Relevant Coursework: Software Engineering, Deep Learning, Algorithm Design and Analysis, Computer Vision, Computer Graphics, Operating Systems, Compiler Construction, Principles/Programming Languages, Data Structures, Networked Services

Skills

Languages: Python, Java, Javascript,
Rust, Go, SQL, C++, CSS

Tech / Libraries: Git/Github,
Pytorch, Unity

Soft Skills: Communication,
Problem Solving, Leadership

Projects

Local Music Player - Javascript, HTML

- Led a team of 9 students, facilitating Agile ceremonies and maintaining team alignment across a 5-week development cycle
- Designed and implemented a CI/CD testing pipeline using Playwright, improving development speed and application stability
- Built core application features through collaborative design, development, and testing phases
- Delivered a feature-rich application with advanced functionality compared to peer teams

Full-Stack Q&A Forum Application - Javascript, SQL, React

- Developed a full-stack forum application inspired by platforms like Piazza / Stack Overflow in 5 weeks
- Designed backend routes and wrote optimized SQL queries for data handling
- Helped build a React frontend that consumed backend APIs for posting, voting, and moderation
- Followed a test-first development approach to ensure code reliability

Argoverse 2 Dataset Competition - Python

- Developed and evaluated multiple machine learning architectures on the Argoverse 2 Dataset, including MLPs, LSTMs, GNN-based transformers, hybrid attention models, and S4 sequence models
- Improved predictive performance through hyperparameter optimization, K-fold cross-validation, and iterative error analysis

Raytracer - C++

- Built a raytracer from scratch, implementing core computer graphics concepts

Personal Website - HTML, CSS

- Designed and deployed a personal portfolio website to showcase projects and technical skills

Experience

- 5 years of private and public Tutoring / Teaching Assistant experience for Math and Computer Science
- Technician for EVgo electric vehicle chargers, performing on-site maintenance and repairs (2025-2026)
- Wushu Club - Held leadership positions for choreography and organization of performances
- Scouts - 7 years of community and leadership experience
